

src/StructureContainer.cpp

```
graph TD; A[src/StructureContainer.cpp] --> B[StructureContainer.hpp]; A --> C[Store.hpp];
```

The diagram illustrates a source file, `src/StructureContainer.cpp`, which is shown in a dark gray box at the top. Two blue arrows originate from the bottom of this box and point downwards to two separate header files: `StructureContainer.hpp` and `Store.hpp`. These header files are contained within light gray boxes positioned below the source file. The arrows indicate that the source file includes or depends on both of these headers.

StructureContainer.hpp

Store.hpp
