

src/StructureExtension.cpp

```
graph TD; A[src/StructureExtension.cpp] --> B[StructureExtension.hpp]; A --> C[Store.hpp];
```

The diagram illustrates a source file, `src/StructureExtension.cpp`, which has two dependencies. Two blue arrows originate from the bottom edge of the `src/StructureExtension.cpp` box and point to the top edges of the `StructureExtension.hpp` and `Store.hpp` boxes, indicating that the source file includes or uses these header files.

StructureExtension.hpp

Store.hpp
